Recycling

Lovey-dovey newly weds

Her – Lovely polar fleece, hon. Makes you so cuddly!

Him – It's made from our wedding.

Her – Huh?

Him – All that recycling from our engagement party, the wedding...

Her – ...And my hen's night! You recycled the empty bottles!

Him – Plastic makes polar fleece, glass gets turned into new bottles. And all that wrapping paper... became this box with a present inside.

Her – You and your recycling.

Shop Environmentally

Two women shopping in a department/toy store

A – This toy is perfect for Kim’s gift.

B – But look at all the packaging. You’ll only throw it away. This one has NO packaging.

A – OK, how about this gift wrap and card?

B – Perfect, that’s recycled paper.

Checkout boy – That’s 12 dollars. Need a bag?

B – I’ve got one here. Why waste more plastic?

A – Amazing!!! I’ve bought a gift, without taking home anything I don’t need.
