Name of submitter:

*Simone Quentin de Manson*

This is a submission on an application from the *New Zealand and North Canterbury Fish and Game Councils* and the *New Zealand Recreational Canoeing Association* for a water conservation order for *Hurunui River*.

The Applicants consider that the amenity and intrinsic values of the Hurunui River and its associated lakes and tributaries are nationally outstanding and should be recognized and sustained by a Water Conservation Order.

The Hurunui River and its associated lakes and tributaries are under increasing threat from major irrigation and hydro-electricity proposals. The Hurunui River needs robust and durable statutory protection to ensure that future generations are able to continue to experience its outstanding values.

The specific parts of the application that my submission relates to are:

My submission covers and supports all of the application, but in particular relates to:

- paragraphs 39-42 of the application, which summarises the outstanding amenity and intrinsic values of the waters, and
- paragraphs 96-115 of the application, which address the outstanding recreational attributes of the Hurunui River.

My submission is:

The Hurunui is an accessible, varied and user-friendly whitewater resource. No other large city in New Zealand has such a valuable river on its doorstep. I support the granting of the Hurunui Water Conservation Order.

I had my first white water experience on the Hurunui, in a sit in top kayak. Then more again when I did a kayak course, since then I have been on it several times and am now planning another rafting trip with some friends. For me the river is not about the kayaking but about a place to go and have some fun that's not far from my home in Christchurch, not costing a fortune

in fuel to go there and is far enough to feel like you are away from the worries and day to day of the city. I would like it to be there forever!

Please consider that to damn this river is a temporary solution to a larger problem. We need power generated and water for our farms that does not permanently harm our environment. As long as we accept the quick and practised fix, the longer it will take to find a solution that works for the long term.

Thanks!

I seek the following decision from the special tribunal:

I seek a decision from the tribunal to grant the Water Conservation Order for the Hurunui river

I wish to be heard in support of my submission

\* If others make a similar submission, I will consider presenting a joint case with them at a hearing.
