Damming the river

My submission is:

I totally appose the damming of this pristine Nevis River for the purpose of generating electricity or any other reason.

This is one of the last wilderness experience areas we have in its natural state and all efforts should be made to keep it this way and out of any commercial investments.

I seek the following decision from the special tribunal:

Protect the Nevis Valley from commercial exploitation and leave the river as it is for future generations to enjoy the same as we are doing right now

I do not wish to be heard in support of my submission.
