

Form 30
Submission on publicly notified application for water conservation order
or for revocation or amendment of water conservation order

Sections 205 and 216, Resource Management Act 1991

To Kawarau River Water Conservation Order

Name of submitter: Graeme Kenneth Anderson

This is a submission on an application from Graeme Anderson for a water conservation order an amendment of a water conservation order for Kawarau River

[Briefly describe the application and the reasons for the application.]

The application seeks to amend the order in respect of the Nevis river to improve protection of the river to prohibit damming and diversion and further water extraction

The specific parts of the application that my submission relates to are:

[give details].

The entire Nevis valley catchment upstream of its confluence with the Kawarau river

My submission is:

*The Nevis river must be preserved in its entirety as it represents one of the last unmodified catchments in Otago

This river offers unique angling opportunities that are relatively accessible in an environment that is quintessential Otago high country and as such represents unique opportunities Any modification by damming or other development will destroy these qualities.

This proposed damming of this river is not justified in New Zealand today as areas like these need to be preserved to enhance this country as a tourist destination.

I seek the following decision from the special tribunal:

The special tribunal must decide to include all of the Nevis River and its tributaries in the Kawarau river conservation order to preserve it for the future.

I wish do not wish to be heard in support of my submission.
