Submission on Water Conservation Order Oreti River

F E Blackbeard
13 Giblin St
Richmond
1/11/06

EL 5444557

I would like to support the order as applied for .

I am concerned at the rate of so called development with the loss of our natural heritage and in particular our natural free flowing rivers.
I know what pleasure my sons have had over the years in particular in fishing the Oreti which I understand has some of the best trout fishing in the world.
It needs to be kept in its natural state so my grandchildren and their children in turn have this opportunity.

I would like the Tribunal to grant the order as it has been applied for.

I do not want to be heard in support of this submission.
