Submission on Water Conservation Order-Oreti River (Farm 30)

Section 205, Resource Management Act 1991

1. In completing your submission include:
 - whether you support or oppose the Order, and the reasons for your views
 - If you support the Order, but prefer to preserve a different but related water body in the same catchment, state this and your reasons
 - If you support the Order, but prefer to preserve different features and qualities of the water body, state this and your reasons.

In giving reasons for these preferences, you must refer, if practicable, to the matters set out in sections 199, 200 and 207 of the Resource Management Act 1991. You must also describe the provisions that you think should be included in the Order and the effects that those provisions would have on the water body.

2. If you oppose the Order, you must give reasons why you consider that the Order is not justified in terms of sections 199 and 207 of the Resource Management Act 1991.
3. The Special Tribunal may require you to provide further information on your submission.
4. You must send a copy of your submission to the applicant as soon as reasonably practicable after you have served your submission on the Special Tribunal.

Submissions must be received by the Special Tribunal at its address stated below by 5pm on Wednesday 15th November 2006.

Submission: To the Special Tribunal, Oreti River Water Conservation Order

SUBMITTER'S DETAILS	
Full name: Dr. Sheralyn Marie Hume	
Postal Address PO Box 34, Te Anau	
Work phone: 03 249 8393	Home phone: 03 249 8393
Work fax: 03 249 8393	Home fax: 03 249 8393
Mobile:	Email address: s.s.s@xtra.co.nz

SUBMISSION DETAILS (use additional pages if required)	
<input checked="" type="checkbox"/> Yes I/we support the application	<input type="checkbox"/> I/we oppose the application
1. * The specific parts of the application that my/our submission relates to are:	
The whole application	
2. * My/our submission is (see notes 1 and 2).	
<p>I strongly support the application for a water conservation order for the Oreti river.</p> <p>The Oreti is the one of the best brown trout fishery I have ever fished. Access is easy for all. Thanks to its natural course, its clean and clear water, the fish are big and numerous and the scenery gives a remote feeling, while never being too far away from the safety of civilization.</p> <p>Research on other NZ rivers has proven that many of the trout are sea run fish. Therefore it is important to keep the main river free of dams that would stop these fish migrating up from the lower reaches.</p> <p>The Oreti is outstanding and a rare jewel, so let's protect it for us and future generations!</p>	
3. * I/we seek the following decision from the special tribunal (give precise details, including the general nature of any changes sought to the Order)	

I want the tribunal to grant the order in the form it has been applied for.

Tick if applicable <input type="checkbox"/> We want to be heard in support of this submission	<input type="checkbox"/> If others make a similar submission, I will consider presenting a joint case with them at a hearing.
Signature of submitter 	Date: Nov.3 2006

And as soon as practicable to:

NZ and Southland Fish & Game
C/- Anderson Lloyd Caudwell
Otago House
10th Floor
Moray Place/Princes Street corner
Private Bag 1959
Dunedin

Summary of application

The applicant seeks protection of:

- the main stem of the Oreti River upstream of Mossburn
- Weydon Burn, Windley River and all other tributaries upstream of Lincoln Hill
- Groundwater connected to the surface water of the river from Mossburn upstream to the headwaters

In recognition of the following outstanding features and characteristics

- Natural state, wild and scenic
- Fishery and angling amenity
- Habitat for trout and wildlife
- Value in accordance with tikanga Maori,

The outstanding features and characteristics are to be protected by prohibiting damming; restricting the taking of surface water and groundwater, restricting alteration of river flow, form or water quality; and the maintenance of fish passage.

The applicant also seeks protection of the main stem of the Oreti between Mossburn and the bridge at Wallacetown, for:

- Its necessary contribution to the outstanding angling and fishery values upstream.
- This necessary contribution is to be protected in this stretch by a prohibition on damming, which will enable fish passage to be maintained.

The application is supplemented by further information provided to the Minister in July and August 2005.
