Submission on Water Conservation Order - Oreti River (Form 30)

Section 205, Resource Management Act 1991

- 1. In completing your submission include:
- whether you support or oppose the Order; and the reasons for your views
- If you support the Order, but prefer to preserve a different but related water body in the same catchment, state this and your reasons
- If you support the Order, but prefer to preserve different features and qualities of the water body, state this and your reasons.

In giving reasons for these preferences, you must refer, if practicable, to the matters set out in sections 199, 200 and 207 of the Resource Management Act 1991. You must also describe the provisions that you think should be included in the Order and the effects that those provisions would have on the water body.

- 2. If you oppose the Order, you must give reasons why you consider that the Order is not justified in terms of sections 199 and 207 of the Resource Management Act 1991.
3. The Special Tribunal may require you to provide further information on your submission.
4. You must send a copy of your submission to the applicant as soon as reasonably practicable after you have served your submission on the Special Tribunal.

Submissions must be received by the Special Tribunal at its address stated below by 5pm on Wednesday 15th November 2006.

Submission: To the Special Tribunal, Oreti River Water Conservation Order

SUBMITTER'S DETAILS

Form with fields for: Full name: Josh Polan, Postal Address: Flat 2, 3 Waiiau Court, Te Anau, Southland, Work phone, Home phone, Work fax, Home fax, Mobile, Email address: cicada2@hughes.net

SUBMISSION DETAILS (use additional pages if required)

Form with checkboxes: [X] I/We support the application, [] I/we oppose the application

1. * The specific parts of the application that my/our submission relates to are:

The whole application

2. * My/our submission is (see notes 1 and 2):

Fishing the upper Oreti River is the highlight of my annual trip to New Zealand. I've fished the last 13 seasons in NZ, mostly the South Island, and the Oreti is my favorite. The beauty and cleanliness of the water and the undamaged valley make it a very special place! The access is fairly easy, but it still really feels like a backcountry wilderness river. The whole fishing and tramping day is always special. The biggest trout I catch every season are in the Oreti and, like most anglers on the upper section, I release all of them for other fishermen to enjoy. When I fish the river with other overseas anglers they are always astounded and thrilled by their day.
I've fished for trout all over the world and the Oreti is the tops! Great valley, grand scenery and great water. A True jewel in the crown of NZ fishing that should be preserved and protected. The fish are only as healthy as the habitat and the river must be protected from damming, groundwater removal, etc. to allow fish passage from the lower reaches.

3. * I/we seek the following decision from the special tribunal (give precise details, including the general nature of any changes sought to the Order)

Tick if applicable <input type="checkbox"/> I/We want to be heard in support of this submission	<input type="checkbox"/> If others make a similar submission, I will consider presenting a joint case with them at a hearing.
Signature of submitter 	Date: 13 / 11 / 16

 PO Box 1345
 Christchurch

And as soon as practicable to:

NZ and Southland Fish & Game
 C/- Anderson Lloyd Caudwell
 Otago House
 10th Floor
 Moray Place/Princes Street corner
 Private Bag 1959
 Dunedin

Summary of application

The applicant seeks protection of:

- the main stem of the Oreti River upstream of Mossburn
- Weydon Burn, Windley River and all other tributaries upstream of Lincoln Hill
- Groundwater connected to the surface water of the river from Mossburn upstream to the headwaters

In recognition of the following outstanding features and characteristics

- Natural state, wild and scenic
- Fishery and angling amenity
- Habitat for trout and wildlife
- Value in accordance with tikanga Maori,

The outstanding features and characteristics are to be protected by prohibiting damming; restricting the taking of surface water and groundwater, restricting alteration of river flow, form or water quality; and the maintenance of fish passage.

The applicant also seeks protection of the main stem of the Oreti between Mossburn and the bridge at Wallacetown, for:

- Its necessary contribution to the outstanding angling and fishery values upstream.
- This necessary contribution is to be protected in this stretch by a prohibition on damming, which will enable fish passage to be maintained.

The application is supplemented by further information provided to the Minister in July and August 2005.
