Submission on Water Conservation Order - Oreti River (Form 30)

Section 205, Resource Management Act 1991

- 1. In completing your submission include:
- whether you support or oppose the Order; and the reasons for your views
- If you support the Order, but prefer to preserve a different but related water body in the same catchment, state this and your reasons
- If you support the Order, but prefer to preserve different features and qualities of the water body, state this and your reasons.

In giving reasons for these preferences, you must refer, if practicable, to the matters set out in sections 199, 200 and 207 of the Resource Management Act 1991. You must also describe the provisions that you think should be included in the Order and the effects that those provisions would have on the water body.

- 2. If you oppose the Order, you must give reasons why you consider that the Order is not justified in terms of sections 199 and 207 of the Resource Management Act 1991.
3. The Special Tribunal may require you to provide further information on your submission.
4. You must send a copy of your submission to the applicant as soon as reasonably practicable after you have served your submission on the Special Tribunal.

Submissions must be received by the Special Tribunal at its address stated below by 5pm on Wednesday 15th November 2006.

Submission: To the Special Tribunal, Oreti River Water Conservation Order

Table with 2 columns: SUBMITTER'S DETAILS, Full name: Mark David Adamson on behalf of the Wakatipu Anglers Club, Postal Address: PO Box 1333, Queenstown, Work phone: 03 441 4278, Home phone: 03 409 8484, Work fax: 03 441 4269, Home fax: , Mobile: 027 433 0116, Email address: mark.adamson@works.co.nz

SUBMISSION DETAILS (use additional pages if required)
[] I/we support the application
[] I/we oppose the application
1. * The specific parts of the application that my/our submission relates to are:
The whole application
2. * My/our submission is (see notes 1 and 2):
We support the application because the Oreti river is one of the best brown trout fisheries that is fished by club members and we would like to see it protected by a conservation order. The trout fishery, especially in the part of the river upstream of Mossburn is very special. The landscape and scenery there are very nice with open spaces and tussock valleys with a fringe of beech forest. The river is easy to get to but is also on the edge of the wilderness and once you are on the river there is a feeling of isolation there. The trout are very large, some of the biggest in New Zealand. They are also quite hard to catch but when you get one you know you will have a beauty. We don't know of any other river where the trout are so big and so fat and the club members have fished in many rivers in New Zealand and some overseas. The water there is very clean and clear and this makes the trout hard to catch, but it also makes the river very attractive. It is pristine. We know that some of the trout are sea run fish so it is important to keep the main river free of dams that would stop these fish migrating up from the lower reaches.

3. * I/we seek the following decision from the special tribunal (give precise details, including the general nature of any changes sought to the Order)	
I want the tribunal to grant the order in the form it has been applied for.	
Tick if applicable <input type="checkbox"/> I/We want to be heard in support of this submission	<input type="checkbox"/> If others make a similar submission, I will consider presenting a joint case with them at a hearing.
Signature of submitter 	Date: 13 Nov 2006

 Christchurch

And as soon as practicable to:

NZ and Southland Fish & Game
 C/- Anderson Lloyd Caudwell
 Otago House
 10th Floor
 Moray Place/Princes Street corner
 Private Bag 1959
 Dunedin

Summary of application

The applicant seeks protection of:

- the main stem of the Oreti River upstream of Mossburn
- Weydon Burn, Windley River and all other tributaries upstream of Lincoln Hill
- Groundwater connected to the surface water of the river from Mossburn upstream to the headwaters

In recognition of the following outstanding features and characteristics

- Natural state, wild and scenic
- Fishery and angling amenity
- Habitat for trout and wildlife
- Value in accordance with tikanga Maori,

The outstanding features and characteristics are to be protected by prohibiting damming; restricting the taking of surface water and groundwater, restricting alteration of river flow, form or water quality; and the maintenance of fish passage.

The applicant also seeks protection of the main stem of the Oreti between Mossburn and the bridge at Wallacetown, for:

- Its necessary contribution to the outstanding angling and fishery values upstream.
- This necessary contribution is to be protected in this stretch by a prohibition on damming, which will enable fish passage to be maintained.

The application is supplemented by further information provided to the Minister in July and August 2005.
