MFE - South Island Office

Submission on Water Conservation Order - Oreti River (Form 30)

Section 205, Resource Management Act 1991

1. In completing your submission include:
- whether you support or oppose the Order; and the reasons for your views
 - If you support the Order, but prefer to preserve a different but related water body in the same catchment, state this and your reasons
 - If you support the Order, but prefer to preserve different features and qualities of the water body, state this and your reasons.

In giving reasons for these preferences, you must refer, if practicable, to the matters set out in sections 199, 200 and 207 of the Resource Management Act 1991. You must also describe the provisions that you think should be included in the Order and the effects that those provisions would have on the water body.

2. If you oppose the Order, you must give reasons why you consider that the Order is not justified in terms of sections 199 and 207 of the Resource Management Act 1991.
3. The Special Tribunal may require you to provide further information on your submission.
4. You must send a copy of your submission to the applicant as soon as reasonably practicable after you have served your submission on the Special Tribunal.

Submissions must be received by the Special Tribunal at its address stated below by **5pm on Wednesday 15th November 2006**.

Submission: To the Special Tribunal, Oreti River Water Conservation Order

SUBMITTER'S DETAILS	
Full name: DAVID HAYNES	
Postal Address 15 COCHRAN ROAD, ORATIA, AUCKLAND 1007	
Work phone: 09 818 5101	Home phone: 09 818 5101
Work fax: 09 818 5101	Home fax: 09 818 5101
Mobile: 021 351 933	Email address: david@solumconsulting.co.nz

SUBMISSION DETAILS (use additional pages if required)	
<input checked="" type="checkbox"/> I/We support the application	<input type="checkbox"/> I/we oppose the application
1. * The specific parts of the application that my/our submission relates to are:	
The whole application	
2. * My/our submission is (see notes 1 and 2):	
<p>In my experience the Oreti river is an outstanding NZ trout fishery, one which I travelled 20,000km to fish a few years ago and always try to return whenever I can. Indeed it's value as an asset to overseas anglers seeking a true wilderness experience cannot be over-stated. It is one of a diminishing number of rivers in NZ that is crystal clear, full of water, sustains exceptional quality brown, has enchanting bush and supports native wildlife, fish and fauna.</p> <p>As one of many anglers who generates income for Southland (hotels, car hire, tackle, food, etc) I believe that as New Zealanders we should be putting the environment first and industry/agriculture second. Anglers and tourists come to spend money in our country because of our beautiful environment, NOT to see dams, water abstraction, high density farming and industrial development.</p>	

<p>3. * I/we seek the following decision from the special tribunal (give precise details, including the general nature of any changes sought to the Order)</p>	
<p>I want the tribunal to grant the order in the form it has been applied for.</p>	
<p>Tick if applicable</p> <p><input type="checkbox"/> I/We want to be heard in support of this submission</p>	<p><input type="checkbox"/> If others make a similar submission, I will consider presenting a joint case with them at a hearing.</p>
<p>Signature of submitter</p> 	<p>Date: 27 OCTOBER 2006</p>

 Christchurch

And as soon as practicable to:

NZ and Southland Fish & Game
 C/- Anderson Lloyd Caudwell
 Otago House
 10th Floor
 Moray Place/Princes Street corner
 Private Bag 1959
 Dunedin

Summary of application

The applicant seeks protection of:

- the main stem of the Oreti River upstream of Mossburn
- Weydon Burn, Windley River and all other tributaries upstream of Lincoln Hill
- Groundwater connected to the surface water of the river from Mossburn upstream to the headwaters

In recognition of the following outstanding features and characteristics

- Natural state, wild and scenic
- Fishery and angling amenity
- Habitat for trout and wildlife
- Value in accordance with tikanga Maori,

The outstanding features and characteristics are to be protected by prohibiting damming; restricting the taking of surface water and groundwater, restricting alteration of river flow, form or water quality; and the maintenance of fish passage.

The applicant also seeks protection of the main stem of the Oreti between Mossburn and the bridge at Wallacetown, for:

- Its necessary contribution to the outstanding angling and fishery values upstream.
- This necessary contribution is to be protected in this stretch by a prohibition on damming, which will enable fish passage to be maintained.

The application is supplemented by further information provided to the Minister in July and August 2005.
