To:
Transpower
Board Of Inquiry- Hearing Evidence

1. According to Real Estate Agents Housing development will have spread into Brookby and Clevedon. Councils District Plan will set out requirements for land for Housing by the end of August
2. There are huge discrepancies between independent valuers for Transpower and our Valuer of nearly 41% for the valuations done on our property. This seriously needs to be addressed.
3. The size of the 70mtr pylons proposed have never been seen previously in NZ by the public.
A fullscale model of a 70 metre pylon should be built so that the people of N.Z. can see the potential blight of the landscape.
