Subject: Statement of Evidence

Good afternoon

I regret that to date due to extreme pressure in the farming sector, (that is an extended drought requiring full time consideration of animal welfare), I have not had the time to evaluate the "evidence" and submit fully for the upcoming Board of Inquiry. It is my intention to have ready a video of analysis of the proposal for the Inquiry to support the evidence provided by Geoff Copstick and Kate Brennan and New Era Energy Incorporated. I am fully supportive of the evidence provided by these people.

I remain totally opposed to the 220/440 proposal on environmental impact, social impact and economical impact basis.
