Please tick the relevant boxes on the next page to identify whether you are making a submission on all notices of requirement and applications for resource consents or just some of them (please identify).

Please also indicate on the back of this form (4) whether you support, oppose, or are neutral in relation to the notices of requirement and applications for resource consents. If you are making a submission only on parts of a notice of requirement or application for resource consents, please note this when specifying the reasons for your submission.

The reasons for my/our submission are: If you are attaching further information tick for yes
Transpower have not "consulted" properly on this proposal. Out of date projections and estimates of electricity use have been used in the G.I.T. The single 400KV proposal does not pass the grid reliability test. Future generation north of Auckland has been ignored. There are cheaper alternatives. The line will never be energised at 400KV. I do not want everyday New Zealanders exposed to cancer causing EMF's. Please use more pages if you need to.

I/we seek the following decision from the Board of Inquiry (provide precise details including the nature of any conditions sought):
That the board reject totally all of the Transpower proposals relating to the construction and operation of the 400KV line.

Please use more pages if you need to.

Use a clear tick in the appropriate box below (✓)

I/we wish to be heard in support of my/our submission (to speak at the public hearing).

I/we DO NOT wish to be heard and hereby make my/our submission in writing only.

Signature(s): J Gasnier Date: 3/10/07
