ATTENTION: "GRID UPGRADE SUBMISSIONS"

Dear Sir,

We would like to to put forward our submission on the Grid Upgrade Project.

We totally oppose the building of the 400 K.V. lines and the disfigurement of our beautiful landscape.

WHY would you build these huge pylons over green areas when it is possilbe to upgrade the existing lines?

The use of H.V.D.C. transmission should also be investigated as they do not have the health risks and are much less obtrusive. D.C. power comes over the Cooks Straight to Hayward, North of Wellington.

It is your duty to obtain all information and act accordingly ensuring the construction of this monstrosity does not take place.

We wish to be heard in support of our submission.

W.T. & C.E. Jones
