

# SUBMISSION ON TRANSPOWER'S NOTICES OF REQUIREMENT AND APPLICATIONS FOR RESOURCE CONSENTS

Section 145 of the Resource Management Act 1991

RECEIVED ON

- 2 OCT 2007

0611

**Submit to BOTH:**

Minister for the Environment  
Freepost Grid Upgrade Submissions  
PO Box 4405  
Hamilton East  
HAMILTON 3247  
Email: tpcallin@mfe.govt.nz  
Fax: 04 439 7700

And Transpower  
Freepost 182915  
PO Box 1021  
WELLINGTON  
Email: submissions@transpower.co.nz  
Fax: 04 819 7624

Please note: you must forward a copy of this submission to BOTH Ministry for the Environment AND Transpower, by any means you wish (post, fax, email)

This submission relates to the notices of requirement and/or applications for resource consent, lodged by Transpower New Zealand Ltd for the North Island Grid Upgrade Project, and identified below.

CLOSING DATE FOR SUBMISSIONS: 5 OCTOBER 2007

My/Our Full Name(s):

*Graham Rangy*

Postal Address:

*1043 Wairua Road, Putaruru*

Wk Ph:

*078832745*

Hm Ph:

Cell:

Email:

The reasons for my submission are:

I am completely opposed to Transpower's intention to build this un-needed line, as the demand growth projections of the Electricity Commission (2007 SOO) do not justify its construction. The scale and capacity of this proposed 400kV capable line is completely out of alignment with the expected requirements for transmission capacity into Auckland to meet demand growth in the next 40 years. The potential new generation capacity likely to be constructed in the Auckland region in the next 40 years has been grossly underestimated in an attempt to justify this line as one of national significance and urgency.

Better equal benefit alternatives to this proposed line are available that have a much reduced environmental impact, such as more generation in the Auckland region, duplexing and reconductoring of the Whakamaru A, B and C lines, use of HVDC transmission technology which will be less obtrusive and easier to underground, more extensive use of undergrounding of HVAC lines, and consideration of new conventional small scale 220kV transmission lines.

I oppose this line being built on a 65 metre wide easement, when a 600 metre wide easement, free of houses and workplaces, should be required as a precautionary principle to reduce future health risks and environmental impacts.

I oppose large scale HVAC transmission lines being built on narrow 65 metre wide easements because of the EMF emissions and ionized particle emissions that will come from this line, which have been proven to cause numerous diseases, including childhood leukaemia.

I oppose these applications because Transpower has falsely (and perhaps criminally) tried to justify the need for this line being built by using out of date and inaccurately high demand growth forecasts (2005 SOO), have not included the cost of environmental impacts in their justifications, and are providing misleading and inaccurate costings of the real alternative options to this line that should be considered.

Please complete other side of form

Ministry for the  
Environment  
Manatū Mō Te Taiao

I/we seek the following decision from the Board of Inquiry (provide precise details including the nature of any conditions sought):

That the application for Notices of Requirement and Resource Consents should be turned down completely, and Transpower directed to investigate generation, conservation and transmission alternatives that will avoid this line being built under any circumstances.

I explicitly **do not** want the Board of Inquiry to approve the applications subject to conditions – I want the applications turned down in whole.

I/we wish to be heard in support of my/our submission at the public hearing, and expect I will need between one and two hours to present my evidence. I would like the location of the portion of the hearing which will receive my evidence to be held in a local venue near to where I live.

✓

I/we make my/our submission concerning all notices of requirements and applications for resource consents relating Transpower's applications that will be heard by this Board of Inquiry. The references are NORs 27619, L07089, DES0011/07, RMR200621, DN/0006/07, 240/021, RM070209, and resource consents 34102, 34370, 34372, 34373, 34711, 34712, 116902, 116903, 116904, 116905, and any other NORs or resource consent applications that may subsequently be filed or altered. We oppose all of these NORs and applications for resource consent.

✓

I/we have served a copy of my/our submission on the applicant by copy to Transpower as above.

Date:

27-9-07

(Signature is not required for electronic (email) submissions.  
If this is a joint submission by two or more individuals, each individual's name is required.)

I am opposed to this application by Transpower for the following reasons

Firstly the submission above  
At this point of time we have ~~no~~ lines near our property

Why pollute more properties.  
Why cant they go in the corridors that are already established

Visual Pollution:

We have lived on this site for 53 years.

These proposed lines will be immediately in front of our house and view. Approx 120 M.  
We require a detailed report on the emissions from these giant Lines

Ministry for the  
Environment  
Manatū Mo Te Taiao

We are led to believe you are under grounding lines North of Auckland

Why cant you under ground in South Waikato.
