Please tick the relevant boxes on the next page to identify whether you are making a submission on all notices of requirement and applications for resource consents or just some of them (please identify).

Please also indicate on the back of this form (✓) whether you support, oppose, or are neutral in relation to the notices of requirement and applications for resource consents. If you are making a submission only on parts of a notice of requirement or application for resource consents, please note this when specifying the reasons for your submission.

The reasons for my/our submission are:

If you are attaching further information tick for yes

- 1) The proposed pylons and 400 KV lines will destroy the landscape for several kilometres either side of their path amounting to visual pollution
- 2) The lines will represent a health hazard to many people and animals.
- 3) Other alternatives are available eg. underground, riverbed and also power generation in or about AUCKLAND by Solar, Wind and tide flow.

I/we seek the following decision from the Board of Inquiry (provide precise details including the nature of any conditions sought):

That if 400 KV lines are absolutely necessary they be run underground. Direct investigation into other forms of "local" electricity generation near Auckland by solar, wind and tidal flow methods

Please use more pages if you need to.

Use a clear tick in the appropriate box below (✓)

I/we wish to be heard in support of my/our submission (to speak at the public hearing).

I/we DO NOT wish to be heard and hereby make my/our submission in writing only.
