Please tick the relevant boxes on the next page to identify whether you are making a submission on all notices of requirement and applications for resource consents or just some of them (please identify).

Please also indicate on the back of this form (✓) whether you support, oppose, or are neutral in relation to the notices of requirement and applications for resource consents. If you are making a submission only on parts of a notice of requirement or application for resource consents, please note this when specifying the reasons for your submission.

The reasons for my/our submission are: If you are attaching further information tick for yes

I oppose large scale HVAC transmission lines being built on a 65m wide strip easement because of the EMF emission + ionized particle emissions which have proven to cause sickness + cancers in people. Presently there are houses too near the powerlines. You wouldn't live near one. Auckland needs to conserve power + decentralise industry due to target for earthquakes, volcanoes, terrorist attacks. Very vulnerable if don't spread power transmission. Use less environmentally destructive energy. Put 2995 in one basket - BAD.

Please use more pages if you need to.

I/we seek the following decision from the Board of Inquiry (provide precise details including the nature of any conditions sought):

That the application for Notices of requirement & resource consents should be turned down completely & Transpower directed to investigate generation, conservation & transmission alternatives that will avoid building this line.

Please use more pages if you need to.

Use a clear tick in the appropriate box below (✓)

I/we wish to be heard in support of my/our submission (to speak at the public hearing).

I/we DO NOT wish to be heard and hereby make my/our submission in writing only.
