Please tick the relevant boxes on the next page to identify whether you are making a submission on all applications for resource consent or just some of them (please identify).

Please also indicate on the back of this form (✓) whether you support, oppose, or are neutral in relation to the applications. If you are making a submission only on parts of an application for resource consent, please note this when specifying the reasons for your submission.

The reasons for my/our submission are: 1 The Turitea Reserve if you are attaching further information tick for yes   
Should not be used for a wind farm as it would threaten Palmerston North's water supply. Human activity should not be encouraged in the catchment area for the city's water supply. Potential hazards include: 1) sedimentation; 2) noise pollution from machinery, from turbines if they catch fire and from agents used to clean blades 2 Devaluation of neighbouring properties and potential noise pollution

Please use more pages if you need to.

I/we seek the following decision from the Board of Inquiry (provide precise details including the nature of any conditions sought):

1 No turbines to be constructed in the Turitea Reserve.  
2 Should any turbines be constructed, Mighty River Power should fairly compensate neighbouring property owners facing devaluation of their properties

Please use more pages if you need to.

Use a clear tick in the appropriate box below (✓)

I/we wish to be heard in respect of my/our submission (to speak at the public hearing).

I/we DO NOT wish to be heard and hereby make my/our submission in writing only.
