My name is Jutta Tebje-Kelly and I live in the home we own at 22 Pineland Drive Ngahere Park Palmerston North RD4 (phone 06 355 2847).

I oppose all aspects of the application for resource consent by the Mighty River Power Ltd.

My family was chased out of Zimbabwe in 2001 by machete wielding savages. We took refuge in New Zealand, a country that offered respect for the rights of the individual and a clean and green lifestyle. Now we are being chased out of the home we carefully chose on the edge of an unspoiled nature reserve by blade wielding wind machines. We do not want to live with the noise and visual pollution that these machines will provide, let alone the disturbances that will occur during their building. If the Ministry approves the proposal the impact on my family will be enormous. Sell our lovely property at a huge loss and be penniless once again. Or stay and tolerate a dramatic decrease in the quality of life resulting from the very obvious and overawing intrusion of this unproven technology fad.

I request the right to be heard so that I can elaborate on my submission.
