Please find my submission on the Mighty River Power Ltd Application for resource consent

Apologies for not using proscribed PDF form, but was unable to send Fax or email PDF file.

I wish to make my submission concerning ALL applications for resource consent.

I OPPOSE the wind farm in its entirety.

The reasons for my application are:

I oppose the proliferation of wind turbines on the ranges behind Palmerston North. There are already too many.

I oppose the use of our natural/wild areas being sacrificed to Energy needs when there are better alternatives and better places for turbines.
We need to protect our landscape amenity.

I oppose the windfarm on the basis of noise. They are too close to existing residences, and current noise standards do too little to protect neighbours from noise nuisance.

I use the decisions from the recent Motorimu hearings as a basis for my opposition.

I wish to be heard in respect of my submission

Yours faithfully

Ms Helen van den Ende
