# TURITEA WIND FARM SUBMISSION

18.2.09

JOHN WHEELER

RD3 PAHIATUA.

The reasons for my submission are:-  
Access for construction, wind strength and constancy, proximity to the 220 KV grid, almost no residents, central to the national power demand - all compelling reasons for this wind farm to be established.

The national and global demand for wind generation make this development urgent. Government ownership and the use of local body land further support the public benefit.

I seek the following decision:-

The board of inquiry should decide in favour of this wind farm proceeding with no further delays or modifications. The meticulous planning and the responsible attitude of both mighty river power and the Palmerston North City Council will ensure that unforeseen circumstances will either be absent or dealt with responsibly.

Yours faithfully

John Wheeler
