Please tick the relevant boxes on the next page to identify whether you are making a submission on all applications for resource consent or just some of them (please identify).
Please also indicate on the back of this form (✓) whether you support, oppose, or are neutral in relation to the applications. If you are making a submission only on parts of an application for resource consent, please note this when specifying the reasons for your submission.

The reasons for my/our submission are: If you are attaching further information tick for yes

The amount of land disturbance necessary to access & build such structures in a water catchment area, and the ongoing maintenance of such roads and human impacts on the area throughout the life of the wind turbines, is not compatible with water catchment.
Please use more pages if you need to.

I/we seek the following decision from the Board of Inquiry (provide precise details including the nature of any conditions sought):

Refusal to allow land disturbance of this kind and such human impacts within the designated water catchment area. To reinforce the intention of current restrictions on land disturbance (sediment) and human impacts in water catchment areas.
Please use more pages if you need to.

Use a clear tick in the appropriate box below (✓)

I/we wish to be heard in respect of my/our submission (to speak at the public hearing).

I/we DO NOT wish to be heard and hereby make my/our submission in writing only.

Turbine take

LOOKING like giant wind turbines for lying on their sites Parts for Meridian project have been world since late last across Cook Strait, taken up purpose-homes.

Meridian spoke each 111-metre turbine parts and had been

Four out of five arrived in New Zealand from Denmark had turbine blades and nacelles

Weather permitting start to be put up from Danish expert would then be turbine

"We're going to Ms Shaw said.

If the project resumes turbines would be producing 143 megawatts 70,000 homes.

This photograph clearly shows the amount of physical infrastructure required to erect and maintain a wind farm

This disturbance should not occur in a water catchment area
