My name is Jan Dixon. I am a 61-year-old woman and, with my husband Paul, live at 377 Ruahine St, Palmerston North. I work on our lifestyle block at 83 Ngahere Park Road, R D 4, virtually every day and often all day- taking care of our animals, and doing what is necessary to nurture our mostly-native plantings.

When we purchased this block in March 2001 it was in a very run down condition. We have since invested thousands of dollars and untold time and energy to improve it.

Our house on this block is currently under construction. Its design centres around (1) maximising the views from the elevated site, (2) providing sheltered and covered areas outside so that we can sit outside irrespective of the weather, and (3) view all our fields/animals from the house.

The house site is approximately 150 m above sea level. Bryants Hill, less than 2 kms away, is 354m high. Turbines of 125m tall on top of and near Bryant's Hill (turbines 082 – 088) will be an unwelcome, imposing, and a very, very dominant, inescapable feature in our lives. Other turbines (especially 074,075 & 076) will also be very intrusive

My concerns about the Turitea Wind Farm proposal are many, but can be broadly grouped under the following headings.

1. How the Turbines would affect us on our lifestyle block at 83 Ngahere Park Road
2. Risks to water quality from the Turitea Water Reserve
3. Cumulative effects of another wind farm on the Tararua Ranges
4. Degradation of the native bush in the Water Reserve
5. Effects on leisure pursuits in the area
6. Other miscellaneous considerations

I very much want to be heard by the Commissioners, and would like to enlarge on these points then.
