TO WHOM IT MAY CONCERN

I wish to make a submission in favour of the Mighty River Power proposed wind farm encompassing part of the Waters family farm at Tiritea.

I am a Livestock Broker contracted to ELDERSTOCK NZ LTD and service the livestock sales for the Waters family.

I have another client who has several windmills on his farm and serviced this client for several years before the windmills were installed. The livestock have shown no detriment upon installation of the windmills and in fact are probably more content as the windmills provide more shelter from the elements. This will be exactly the same on the Waters property as it is a very hard farm and very exposed to the elements.

I personally find the windmills a thing of beauty and am always amazed how quiet they are when near them, especially in light of some of the "noise" claims from the anti progress press.

As a country we need sustainable energy and wind power is just simply a logical step in energy production keeping totally in tune with New Zealand's clean green image.

Yours faithfully

Greg Cuttance
