I do not want to see the natural beauty of the Tararuas despoiled by a myriad of turbines on the skyline. My friends, family and I exercise in the regions where they are proposed and we enjoy the peace and solitude of these popular recreational areas. It would seem to me that Palmerston North, in previously contributing large areas of the Saddle Road/Woodville to existing wind farms, has already done its share for electricity generation to the national grid. I oppose the Turitea Wind Farm proposal and request that guidelines be established re turbines distance from residential areas, how much skyline is taken up by them and that they be prohibited from iconic areas.
