The reasons for my/our submission are: If you are attaching further information tick for yes
I oppose the needless destruction of one reserve to create another elsewhere could see this paved for what it is a MRP bike! We spent many hours choosing a site for our current house, unobstructed views of the ranges and Turitea valley, and features that are not duplicated anywhere else. (There are no examples of the construction of wind farms this close to a built up area) The loss of lifestyle, property values and the stress and anxiety created by this project is unacceptable. Pokena Mtn was done its bit - with little gain! its true for the rest of the country to do their bit

I/we seek the following decision from the Board of Inquiry (provide precise details including the nature of any conditions sought):
The total cancellation of the Turitea Wind farm project. (if it proceeds I want assurances there will be no loss of lifestyle, property values, noise issues, contamination of water collection from dist. And MRP held accountable for any such damage or destruction of lifestyle
