**Subject:** Turitea Call In

Mr Brett Micheal Guthrie  
82 Moonshine Valley Rd  
RD 1  
Palmerston North  
06 3532215  
lebermanguthrie@inspire.net.nz

Reasons for submission:

- Proximity of turbines to Moonshine Valley (specifically ##86,87,88)
- Highly probable noise pollution from these nearby turbines affecting us. Noise from the City CBD & airport is very clear most of the time to Valley residents so we assume that any noise from the turbines will be clearly heard. Most Valley residents, ourselves included, have bought here mainly for the quiet.
- Extreme visual pollution of such a number of turbines. A large part of the ranges is clearly visible from our property. Presently we enjoy most of the view. This will be destroyed.
- Loss of Turitea Reserves' unique qualities. Once gone a reserve such as this can never be replaced.

I specifically oppose resource consents:

- 104553
- RC0068

Sincerely

B.M.Guthrie
