Please tick the relevant boxes on the next page to identify whether you are making a submission on all applications for resource consent or just some of them (please identify).

Please also indicate on the back of this form (✓) whether you support, oppose, or are neutral in relation to the applications. If you are making a submission only on parts of an application for resource consent, please note this when specifying the reasons for your submission.

The reasons for my our submission are:

If you are attaching further information tick for yes

To oppose the proposal to build a wind farm within the Turitea Reserve and an adjacent private properties in the Tararua ranges about 10km from PN city centre. I oppose 12 wind turbines, 2 transmission lines, 2 substations + associated works + discharge. This wind farm will reduce the value of my real estate, increase noise + traffic, adverse effect also on my ~~live~~ live stock.

Please use more pages if you need to.

I/we seek the following decision from the Board of Inquiry (provide precise details including the nature of any conditions sought):

Please use more pages if you need to.

Use a clear tick in the appropriate box below (✓)

I/we wish to be heard in respect of my/our submission (to speak at the public hearing).

I/we DO NOT wish to be heard and hereby make my/our submission in writing only.

I oppose the proposal to build a wind farm within the Turitea Reserve and ~~an~~ adjacent private properties in the Taraua Ranges. As a resident in Guyland Drive the Windfarm is predicted to devalue my property significantly. In addition increases noise with probable health (deterioration) implications. The United Kingdom Noise Association (UKNA) has studies which suggest turbine siting should be minimum 1.6 km from residential areas due to noise hazards.

Additional traffic to roads adversely contributing to carbon footprint, congestion and increased traffic will be a certain consequence which I oppose.

The windfarms will adversely affect the aesthetics of the beautiful ranges and include the removal of natural vegetation. This I consider ironic when we are trying to preserve natural vegetation and wildlife in the surrounding areas for future generations. The windfarm construction will increase dust in the air and the longterm health effects of such pollution ~~are~~ ^{are} be undetermined.

The construction will discharge stormwater from substations thus increasing the volume of

water in a land area which is often water-logged in rain storms. As we know the Manawatu River (approx 6k away) is currently being re-enforced around the banks manually by the council following significantly floods five years ago.

I oppose the storage of diesel in banded areas outside the Turitea water supply catchment area and the construction of electricity transmission line and substations.

To conclude I completely oppose the Proposed Turitea Wind farm by Mighty River Power Limited.
