Subject: Submission on Mighty River Power Ltd applications for resource consent

To Whom It May Concern,

I had thought that I would be able to submit my statement on-line. This proved impossible as it was a pdf document. At the same time I discovered that the fax machine that I was attempting to use was not working. Regrettably, the mfe telephone was not answered (after 5pm) and I therefore found myself unable to seek assistance. I have tried to save the submission form on to an e-mail - no luck.

Therefore, I am reduced to sending this 'late' e-mail as a submission. I hope that I am not penalised for this rather unorthodox approach.

Name: Anthony Lewis

Postal address: 609 Tennent Drive, R.D. 4, Palmerston North

Home phone: 06 - 355 - 0180

The reasons for my submission are to comment on the following areas:

- National context
- Landscape and visual effects
- Cultural and Tangata Whenua issues
- Ecological issues
- Potential impacts on the Turitea water supply
- Eco-Park proposal
- Traffic issues
- Noise emissions

I seek the following decision from the Board of Inquiry:

Reject in total Mighty River Power Ltd's application for any resource consent.

I do wish to be heard in respect of my submission at a public hearing.

I oppose all applications for resource consents as per page 2 of the submission form.

Anthony Lewis

P.S. A copy of this application has been forwarded to Mighty River Power Ltd.
