This is a further submission in support of, or in opposition to, a submission on the proposed national policy statement for freshwater management (the proposal).

I support/oppose, the submission of:
[name and address of original submitter and submission number of original submission]

Itania Nikolau
 167 Wallace Rd

The particular parts of the submission I support/oppose are:
[clearly indicate which parts of the original submission you support or oppose together with any relevant provisions of the proposal. Please append any additional text]

- To Address the effects of existing and future discharge of contaminants to Freshwater Resources
 - To Support the objectives 1-9 set out in The Proposed National Policy Statement for ~~Management~~ Freshwater Management

 NB// Does the definition for "Freshwater Resources" include seawater ways, tidal sea inlets?

07.

The reasons for my support or opposition are:
[give reasons and append any additional text]

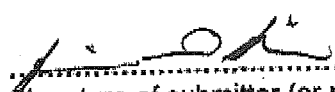

The reason for my support is that we need to " understand and manage threats to water with respect to the availability, quality, health and economic value are therefore fundamental to our well being "

I seek that the whole (or part [describe part]) of the submission be allowed/disallowed
[give precise details and append any additional text]

I see that the whole submission be allowed with definition expanded to include sea water-ways and tidal inlets included within the broader definition for "Freshwater Resources"

I wish (or do not wish) to be heard in support of this submission (please indicate).

- * If others make a similar submission, I will consider presenting a joint case with them at the hearing.
- * Delete if you would not consider presenting a joint case with them at a hearing.
