

**Further Submission in support of, and in opposition to,  
submissions on the publicly notified proposed National Policy  
Statement for Renewable Electricity Generation**

**To** Dr Royden Somerville  
Chairperson  
Board of Inquiry, National Policy Statement for Renewable Electricity  
Generation

**Name of person / organisation making further submission:**

Helen Brosnan (submitter number 63), of 33 Marshall Ave, Richmond Heights, Taupo), as a member and supporter of the further submission made by NZRCA.

In contrast to the summary of my submission, my overall position on the Proposed NPS is that of opposition. Essentially, I believe that the scope of the policy is too narrow and the Proposed NPS is more likely to confuse decision makers than aid them. However, as it appears that the Proposed NPS will be going ahead, my position on the objective and policies is in essence the same as NZRCA's position (see below).

I have seen the 'further submission' written by NZRCA and fully support the content of this submission.

**The NZRCA's position:**

Objective – support in part  
Policy 1: Oppose in part  
Policy 2: Oppose in full  
Policy 3: Conditional support  
Policy 4: Oppose in part  
Policy 5: Conditional support

**I wish to be heard in support of my submission (submission number 63) .**

**Date 19/12/2008**

Address for service of submitter:	33 Marshall Ave, Richmond Heights, Taupo
Telephone:	07 376 5325
Fax/email:	kiwihelenb@hotmail.com
Contact person:	Helen Brosnan
