## Questions

1. Do you agree with the proposed mandatory phase out of the sale or distribution of single-use plastic shopping bags in New Zealand, including those made of degradable (eg, oxo-degradable, biodegradable and compostable) plastic?

- Yes
- No
- Not sure

Why / Why not?

We might want to consider some sort of eco-degradable packaging for buying meat at the supermarket. It sometimes leaks a little and none wants this close to other food such as fruit and vegetables.

2. We have proposed a mandatory phase out of single-use plastic shopping bags. This could include under 50 microns or under 70 microns in thickness.

If you agree with a mandatory phase out, which option do you prefer, and why?

- less than 50 microns in thickness
- less than 70 microns in thickness
- Other (please specify)

3. Are you aware of types of single-use plastic shopping bags that should be exempt from a mandatory phase out?

- Yes
- No
- Not sure

If yes, what are they and why should they be exempt?

4. Do you currently manufacture, sell, provide or import for sale or personal use these types of single-use plastic shopping bags:
- a. 50 microns or less in thickness
- b. more than 50 microns and less than 70 microns in thickness?

- Yes
- No
- Not sure

If yes, please specify which bags and explain how a phase out would be likely to impact on you.

5. Should smaller retailers be exempted from a mandatory phase out of single-use plastic shopping bags?

- Yes
- No
- Not sure

Why / Why not?

There should be a transition phase but the sooner the better. There are so many other options.

6. If smaller retailers are exempted from a mandatory phase out of single-use plastic shopping bags and they are defined by their number of full-time equivalent employees, what should that number be?

[Click here to enter text.](#)

7. The proposed mandatory phase-out period for single-use plastic shopping bags is at least six months from when regulations are Gazetted, subject to consultation. Do you agree with this timing?

- Yes  
 No  
 Not sure

Why / Why not?

[Click here to enter text.](#)

If no, what do you think would be a more appropriate phase-out period?

- two months  
 nine months  
 one year  
 other (please specify)

8. Do you agree that the benefits expected from implementing a mandatory phase out of single-use plastic shopping bags exceed the costs expected from implementing the phase out?

- Yes  
 No  
 Not sure

Why / Why not?

Please consider both monetary and non-monetary costs and benefits (those that can be measured by money as well as those that can't).

9. Do you think that reasonably practicable alternatives to single-use plastic shopping bags exist in New Zealand?

- Yes  
 No  
 Not sure

If no, what do you think is missing currently that would need to be available?

[Click here to enter text.](#)

10. How can people be encouraged to reuse multiple-use shopping bags enough times to offset the environmental impacts of producing them? (select one or more)

- voluntary incentive schemes by individual retailers
- national information campaign and mobile phone app for shoppers
- other (please specify)

Education from a young age onwards to what this change means and what it offers for us and the environment. We might need some initial set up support for those who live on less income.

11. What would help you and your family adjust to life without single-use plastic shopping bags?

Provide alternatives for packaging but also have food less wrapped in plastic. For lunch options more shops might want to advertise the 'bring your own container'.

12. How can data on single-use plastic shopping bags and other single-use plastics entering the market and monitoring of reductions be improved?

Not even sure what the current state is.

13. Please provide any additional comments or suggestions about the proposed mandatory phase out of single-use plastic shopping bags.

Raise awareness, open and transparent discussion, support development of alternatives that are accessible for all New Zealanders.
