Notes

Alternative choices of bags

Clause

10. How can people be encouraged to reuse multiple-use shopping bags enough times to offset the environmental impacts of producing them? (select one or more)

Position

national information campaign and mobile phone app for shoppers

Notes

Clause

11. What would help you and your family adjust to life without single-use plastic shopping bags?

Notes

It's not a big deal. Plastic wasn't available when I was a child.

Clause

12. How can data on single-use plastic shopping bags and other single-use plastics entering the market and monitoring of reductions be improved?

Notes

Most plastic waste goes to Council refuse sites and is separated from other wastes if it is recyclable and can be measured. Non recycled plastics go to landfill but it doesn't have to be this way. Future Laws could prohibit the import or manufacture of non recyclable products, but this requires large change and people are focused on the issue of plastics bags, which is a good and important start.
