---

Dear Sirs,

As a 4thGeneration New Zealander of British ancestry I have deep concerns over the proposals to have joint management rights over New Zealand Waters and waterways.

The water is a natural resource and should be a natural equal right to all New Zealanders whether Maori or pakeha or other ethnicities who are New Zealand residents and can claim to be a New Zealander.

I am concerned that the current Government appears to be changing its stance on this issue.

Yours Sincerely ,

David Charlesworth, [REDACTED]
