I am deeply opposed to Maori having ownership of our waterways. Maori are New Zealanders like myself, whose ancestors came to NZ on the first ships and those who are new to NZ and call it home.

Maori are being given into and it seems the more this government gives into them the more they want - where will it end.

We are one people on one land - nobody should own our rivers and lakes - all of us should own them.

What is the purpose of Maori owning them? To me it is solely to be aggressive to non Maori and I find this totally unacceptable.

Sandie Jennins
