Subject: Opposition to Maori control of water
Date: Friday, 8 April 2016 4:30:14 p.m.

To whom it may concern:

I oppose the ownership of water by Maori.

We are allegedly one country made of various peoples. This is racist and will give Maori control of water.

It is predicted that water will be the most valuable commodity, for without water, life does not exist.

Are we foolish enough to allow a small ethnic group who certainly receive more benefits from civilisation than

they contribute to control the Country?

Adrian Mowatt-Wilson
