-----Original Message----- From: John Reddan [REDACTED] Sent: Sunday, 17 April 2016 2:32 p.m. To: Water Consultation Questions and Comments Subject: control of our environment especially our rivers. Tories wake up before it's too late. All our rivers were at one time swimable and drinkable. Remember the mess the bureaucrats allowed to happen to the Waiwhetu stream in the Hutt valley, the most polluted stream in the Country, where once the local people used to swim. This stream flowed into the Hutt river which was almost as bad. Jack Reddan.
