Hutt City Council (Hutt City) welcomes and applauds the Government’s aims of the Zero Carbon Act.

We endorse the aims of the Zero Carbon Act of:

• Committing New Zealand to zero carbon by 2050 or sooner, and drive a fair and cost-effective transition.

• Safely adapting to the effects of New Zealand’s changing climate by central government preparing a National Climate Risk Assessment and producing an Adaption Programme to address the climate risks identified in the National Climate Risk Assessment.

• Ensuring New Zealand delivers on its international climate change obligations in a transparent manner.
