In favor of 4a?	No
Reason/s	Clean air is a fundamental human right and should not be compromised so a few companies/individuals can save money.
Any changes?	Yes
Suggested changes	Keep maximum number of PM10 exceedance's at one per year. Maintain current timeline. Include exceptional events in standards.
In favor of 4b?	No
Reason/s	Clean air is a fundamental human right and should not be compromised so a few companies/individuals can save money.
Any changes?	Yes
Suggested changes	Keep maximum number of PM10 exceedance's at one per year. Maintain current timeline. Include exceptional events in standards. Industry must not be consent exempt.
CB accurately reflected?	No
How can estimates be improved?	
Any overlooked costs?	Clean air is a fundamental human right and should not be compromised so a few companies/individuals can save money. The effects of a child or adult who can't breath because of poor air quality has not been valued properly.
Information you'd like included	
Increase from 1 to 3	0
Exclude exc events	0
