

Your submission to Clean Water

Clause

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

Notes

I think its stupid to propose that 2040 is an achievable target. It should be 2020. Impose jail time punishments for polluters like fonterra, if you apply a fine, they will just pay it from the profits made from polluting. I think changing the definitions to allow more ecoli in the water is stupid. Were going to have to fork out WAY more money in public health care dealing with all the sick children, parents and people eating the food from these areas.

Clause

What do you think about the proposed amendments to the Freshwater NPS?

Notes

Stupid. I demand clean drinkable water straight from the river by 2020

Clause

What are your thoughts on the proposed stock exclusion regulation, for example, the timeframes and stock types to be excluded?

Notes

I think all stock should be excluded from waterways. Farmers should have to pay for their own water too feed the stock.

Clause

Do you have any other comments on the contents of the Clean Water discussion document?

Notes

I think the water and land forum is making a large contribution to the public discontent. Listen to the major companies like forest and bird. Set better targets. Nothing is more important right now the protecting the water. THERE IS NO ALTERNATIVE. I DO NOT CONSENT TO HAVING MY NAME AND SUBMISSION POSTED ON YOUR WEBSITE
