

Your submission to Clean Water

**Clause**

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

Notes

Shocking, we should be swimming in clean and uncontaminated rivers and lakes. This is just doctoring the reality

Clause

What do you think about the proposed amendments to the Freshwater NPS?

Notes

as above, just hiding cold hard facts

Clause

What are your thoughts on the proposed stock exclusion regulation, for example, the timeframes and stock types to be excluded?

Notes

It's become obvious that pollution from stock is a major cause of water way pollution and government and farmers need to get together to find a solution, form a plan and find a reasonable time frame

Clause

Do you have any other comments on the contents of the Clean Water discussion document?

Notes

I think even if dairy farming stock is reduced and has to be subsidised as it was in the past. if this has to come from taxes I think most New Zealanders would be behind it if it means cleaning up our water. I think it would need to be income tested /asset tested though so a subsidy would be helping those who really need it
