

Your submission to Clean Water

**Clause**

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

Notes

I didn't see much mention about swimming plans.

Clause

What do you think about the proposed amendments to the Freshwater NPS?

Notes

They're unnecessary. It's just going to undermine the environmental protection that Freshwater NPS already provides. Plus NPS already accounts for economic wellbeing when making decisions.

Clause

What are your thoughts on the proposed stock exclusion regulation, for example, the timeframes and stock types to be excluded?

Notes

What timeframes and stock to be excluded? Look the OECD report said that dairy production and government subsidized irrigation is fucking up the water. So if you're saying there's an economic advantage to that, that you know better than the OECD, then we disagree.

Clause

Do you have any other comments on the contents of the Clean Water discussion document?

Notes

All the damn amendments put profit over people and the environment. So go fuck yourselves.
