## Objectives for the contribution

Do you agree with these objectives for our contribution? Yes

1b. What is most important to you?

To replace Kyoto protocols, for the government to form agreement about emissions with other political parties so that New Zealand's stance can be maintained into the future.

What would be a fair contribution for New Zealand?

2. What do you think the nature of New Zealand's emissions and economy means for the level of target that we set?

That profit and the economy is not placed before the big picture and the impact on future generations. It is vital to limit emissions urgently

How will our contribution affect New Zealanders?

3. What level of cost is appropriate for New Zealand to reduce its greenhouse gas emissions? For example, what would be a reasonable reduction in annual household consumption? 45%

4. Of the opportunities for New Zealand to reduce its emissions (as outlined on page 15 of the discussion document), which do you think are the most likely to occur, or be most important for New Zealand? agree

## Summary

5. How should New Zealand take into account the future uncertainties of technologies and costs when setting its target? unsure

## Other comments

6. Is there any further information you wish the Government to consider? Please explain.
