

Your submission to Clean Water

Barrie Graeme Bird

Clause

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

Notes

What absolute rubbish !! There is no such word in the Oxford dictionary as "SWIMMABLE" If you want to swim , you could do so in a septic tank or the sea , the only requirement being that there has to be sufficient water , no matter how foul .

Clause

What do you think about the proposed amendments to the Freshwater NPS?

Notes

More confusion , more bullshit and obfuscation

Clause

What are your thoughts on the proposed stock exclusion regulation, for example, the timeframes and stock types to be excluded?

Notes

What has taken so long ?? What has changed and who is going to police it ??What percentage of incidents of stock in waterways has Ecan prosecuted in living memory ? Just stop the bloody nonsense and time wasting .

Clause

Do you have any other comments on the contents of the Clean Water discussion document?

Notes

The fact that Dr. Smith continues as Minister of the Environment is an insult to the environment . He should be sacked asap although the damage that his devious policies have inflicted on our waterways will persist for generations, and as someone who has "had the best of it "as far as appreciating our outdoors, I am intensely resentful at the environmental destruction and with it a cherished heritage that we should have been able to pass on to coming generations .Smith is an incompetent fool and should go !!
