

Your submission to Clean Water

Matthew Brightwell

Clause

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

Notes

We do not agree. More needs to be done to protect our water yet this corrupt government allows our rivers and lakes to be polluted by big business and farmers. This corrupt government allows our water to be taken by corporations to be bottled while towns in our country are still on boil notices. Irrigation schemes are drying up rivers and lakes across the country yet nothing is being done, why? Because this corrupt government is run by the corporate elite and owned by the oligarchy and we the people have had enough!
