

Your submission to Clean Water

Paul Centofanti

Clause

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

Notes

an absimal joke.

Clause

What do you think about the proposed amendments to the Freshwater NPS?

Notes

too little and way too late. won't fix the problem.

Clause

What are your thoughts on the proposed stock exclusion regulation, for example, the timeframes and stock types to be excluded?

Notes

All stock should be excluded straight away. All rivers should have a two hundred metre exclusion zone, on each side of the river, where there are no pastures allowed within this area. These areas should be fenced off and planted, heavily with native trees and plants. And this means all rivers, streams, creeks, burns and lakes.

Clause

Do you have any other comments on the contents of the Clean Water discussion document?

Notes

Too much dirty water in this country and it only gets worst every day that you allow farmers to continue to farm the way they are doing now. Pull your finger out of your arse Nick and do something about it or resign, as you are an absolute disgrace to the human race.
