Ideally set a negative emissions target to start removing co2 as well.

Net Zero Emissions - Net zero emissions across all greenhouse gases by 2050

### Notes

### Clause

10. What are the most important issues for the Government to consider in setting plans to meet budgets? For example, who do we need to work with, what else needs to be considered?

### Notes

This proposal has a hands off approach to EVs, and I believe it's essential to incentivise EVs with subsidies and taxes, like seen in Colorado and Norway.
