### Clause

1. What process should the Government use to set a new emissions reduction target in legislation?

### Notes

The Government sets a goal to reach net zero emissions by 2025

### Clause

2. If the Government sets a 2050 target now, which is the best target for New Zealand?

### Notes

Net Zero Emissions - Net zero emissions across all greenhouse gases by 2025

### Clause

3. How should New Zealand meet its targets?

### Notes

Domestic emissions reductions only (including from new forest planting) and a massive reduction of imports from corporations which do not follow or exceed our national policy on emissions reductions

### Clause

4. Should the Zero Carbon Bill allow the 2050 target to be revised if circumstances change?

### Position

Yes

### Notes

### Clause

5. The Government proposes that three emissions budgets of five years each (i.e. covering the next 15 years) be in place at any given time. Do you agree with this proposal?

### Position

Yes

### Notes

if they include realistic reductions in emissions

### Clause

6. Should the Government be able to alter the last emissions budget (i.e. furthest into the future)?

### Position

Yes - each incoming Government should have the option to review the third budget in the sequence

### Notes

under circumstances where emission budgets are not adequate to meet emission targets/limits

### Clause

7. Should the Government have the ability to review and adjust the second emissions budget within a specific range under exceptional circumstances? See p36 Our Climate Your Say

### Position

Yes

### Notes

under circumstances where emission budgets are not adequate to meet emission targets/limits

### Clause

8. Do you agree with the considerations we propose that the Government and the Climate Change Commission take into account when advising on and setting budgets? See p44 Our Climate Your Say

### Notes

i struggled to find p44

**Clause**

9. Should the Zero Carbon Bill require Governments to set out plans within a certain timeframe to achieve the emissions budgets?

**Position**

Yes

**Notes**

emissions budgets should be emissions limits

**Clause**

10. What are the most important issues for the Government to consider in setting plans to meet budgets? For example, who do we need to work with, what else needs to be considered?

**Notes**

survival of our species and other appropriate species from our world government needs to work with the humans the serve.
