A climate law like the Zero Carbon Act is important because...	I'm young and this is MY future.
Long-term target	I support the most ambitious target of reducing total greenhouse gases to net zero by 2050. I also support taking a science-based approach to ensure our efforts to reduce emissions are as impactful as possible: we should aim for negative levels of long-lived gases, while reducing short-lived gases to sustainable levels. This target should be reached by reducing our own emissions and not by using international carbon credits.
Climate Commission	I support an independent Climate Commission that is made up of experts and provides advice and can make some decisions.
Adaptation	I support a plan for adaptation being included in the Zero Carbon Act.
Climate justice	A Zero Carbon Act must honour Te Tiriti o Waitangi; ensures a just transition for workers and communities.
