A climate law like the Zero Carbon Act is important because...	Passing a strong and comprehensive Zero Carbon Act is vital because the time to act is now and Aotearoa has the potential to be a leader in this area. We must be bold and ambitious for the future of our children.
Long-term target	I wholeheartedly agree that we need the ambitious target of reducing total greenhouse gases to net zero by 2050. I support a science-based approach to ensure our efforts to reduce emissions are as impactful as possible: we should aim for negative levels of long-lived gases, while reducing short-lived gases to sustainable levels. This target should be reached by reducing our own emissions.
Climate Commission	I support the establishment of an independent Climate Commission that is made up of experts and provides advice.
Adaptation	I support a plan for adaptation being included in the Zero Carbon Act.
Climate justice	Tangata Whenua must be consulted in the development of a Zero Carbon Act, as is their right under Te Tiriti o Waitangi.
