Your submission to Zero Carbon Bill

Dennis Smith

Reference no: 1772

Submitter Type:

Clause 1. What process should the Government use to set a new emissions reduction target in legislation?
Notes Do not set one cos it would be a waste of time

Clause 2. If the Government sets a 2050 target now, which is the best target for New Zealand?
Notes Impossibility being met with probability

Clause 3. How should New Zealand meet its targets?
Notes What will you do to reduce White Is, MT Ruapehu and all other thermal areas of NZ

Clause 4. Should the Zero Carbon Bill allow the 2050 target to be revised if circumstances change?
Notes Zero will be impossible

Clause 5. The Government proposes that three emissions budgets of five years each (i.e. covering the next 15 years) be in place at any given time. Do you agree with this proposal?
Position No
Notes Just a waste of money

Clause 6. Should the Government be able to alter the last emissions budget (i.e. furthest into the future)?
Notes Do not budget anything

Clause 7. Should the Government have the ability to review and adjust the second emissions budget within a specific range under exceptional circumstances? See p36 Our Climate Your Say
Notes Yes or no means you agree with the commission budget

Clause 8. Do you agree with the considerations we propose that the Government and the Climate Change Commission take into account when advising on and setting budgets? See p44 Our Climate Your Say
Position No
Notes

Clause 9. Should the Zero Carbon Bill require Governments to set out plans within a certain timeframe to achieve the emissions budgets?
Notes Its a nonsensical bill
Clause
10. What are the most important issues for the Government to consider in setting plans to meet budgets? For example, who do we need to work with, what else needs to be considered?

Notes
Work with the United States. Then you won't need a budget.

Clause
11. The Government has proposed that the Climate Change Commission advises on and monitors New Zealand's progress towards its goals. Do you agree with these functions? See p42 Our Climate Your Say

Position
No

Notes

Clause
12. What role do you think the Climate Change Commission should have in relation to the New Zealand Emissions Trading Scheme (NZ ETS)?

Notes
Ask yourself where the money comes from and where it goes.

Clause
13. The Government has proposed that Climate Change Commissioners need to have a range of essential and desirable expertise. Do you agree with the proposed expertise? See p45 Our Climate Your Say

Position
No

Notes
There is no expertise

Clause
14. Do you think the Zero Carbon Bill should cover adapting to climate change?

Position
No

Notes
What climate change, it's freezing this morning like any other June?

Clause
15. The Government has proposed a number of new functions to help us adapt to climate change. Do you agree with the proposed functions? See p47 Our Climate Your Say

Position
No

Notes
see previous note

Clause
16. Should we explore setting up a targeted adaptation reporting power that could see some organisations share information on their exposure to climate change risks?

Position
No

Notes

Clause
Do you have any other comments you'd like to make?

Notes
The Earth rotates around the sun. Sometimes it's closer and sometimes it's further away so it's either hotter or cooler. That's the only climate change.
